

TABLE TOPS

All table tops are 1.25" overall thickness unless otherwise noted. Core material is high density particle board with no added urea formaldehyde. We install backing material to the underside of each table. All glue used in our process is 100% water soluble, nontoxic and environmentally friendly.

Table tops can be finished in your choice of laminate, wood veneer Corian or Solid Surface (where available).

T-Nuts and Screws: ERG never uses wood screws. All bases are connected to table tops with metal inserts. Steel machine screws are then inserted into metal inserts, for a metal-to-metal connection.

LAMINATES

ERG offers over 1000 standard laminate choices from Nevamar, Wilsonart, Formica and Pionite. To verify if your laminate is standard with ERG, please call ERG Customer Service. Some laminates carry a premium upcharge. ERG can "special order" laminates made by other manufacturers. Please call Customer Service with your request.

Laminate samples can be obtained from these manufacturers by calling them direct at the numbers listed below.
